PROFESSIONAL SUMMARY

Motivated Software Developer with hands-on experience in Java, HTML, CSS, JavaScript, SQL, Firebase, and Android Development. Experienced as a Computer Science Guest Lecturer and Programming Trainer, with strong communication and problem-solving skills. Passionate about developing responsive web applications and Android applications while continuously learning modern software development practices.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, HTML5, CSS3, SQL

Web Development: Responsive Web Design, DOM Manipulation, Responsive Layouts

Android Development: Java, Android Studio

Database: Firebase, Firebase Realtime Database, SQL

Tools: Git, GitHub, VS Code, Android Studio, Eclipse, Selenium

PROJECTS

Medical Store Stock & Billing System

HTML, CSS, JavaScript, Java, Firebase

Desktop-first medical store management application with an Android companion application connected through Firebase.

- Developed medicine inventory management and stock tracking.
- Implemented billing and invoice generation, and customer management.
- Added sales reporting and low stock notifications.
- Designed responsive desktop interface; integrated Firebase Authentication and Firestore.

Student Attendance Tracker

Java, Android Studio, Firebase

Android application for managing student attendance.

- Built student registration and attendance management features.
- Integrated Firebase Authentication and cloud database for attendance reports.

EXPERIENCE

Guest Lecturer – Computer Science

Government Degree Colleges

- Delivered programming and computer science lectures; conducted practical laboratory sessions.
- Guided students in programming concepts and assisted with technical projects.

Programming Trainer

Private Training Institute

- Trained students in Java, HTML, CSS, JavaScript, SQL, and Android Development.
- Conducted hands-on coding sessions and mentored students in real-world software development projects.

EDUCATION

Bachelor of Engineering (Mechanical)

St. John's College of Engineering and Technology

2022

Percentage: 75%

Diploma in Mechanical Engineering

TGLG Gopal Shetty Polytechnic College

2019

Percentage: 81%

SOFT SKILLS

Problem Solving, Communication, Team Collaboration, Adaptability, Analytical Thinking, Time Management, Quick Learner

LANGUAGES

English, Telugu, Hindi
